DECLARATION FORM – PACKAGING

Commission Decision (EU) establishing the EU Ecolabel criteria for absorbent hygiene products and for reusable menstrual cups

- Recycled content shall be verified by complying with the EN 45557 or ISO 14021.
- Plastic recycled content in the packaging shall comply with chain of custody standards such as ISO 22095 or EN 15343.
- Equivalent methods may be accepted if considered equivalent by a third-party, and shall be accompanied by detailed explanations showing compliance with this requirement and related supporting documentation. Invoices demonstrating the purchase of the recycled material shall be provided.

(c) Recyclability

I declare that content of the sales packaging (either cardboard and/or paper or plastic) and grouped packaging (cardboard and/or paper) that is available for recycling shall be a minimum of 95% by weight, while 5% residuals shall be compatible with recycling.

It is mandatory to submit supporting information on recyclability.

I attach information on recyclability.

- Recyclability shall be verified by complying with the EN 13430 or ISO 18604.
- In addition, recyclability (availability and compatibility for recycling) of the packaging shall be tested by means of standard testing protocols. Cardboard and/or paper packaging recyclability shall be assessed through repulpability testing and in this case, the applicant shall demonstrate cardboard and/or paper packaging repulpability supported by the result(s) of test report(s) according to the PTS method PTS-RH 021, the ATICELCA 501 evaluation system or equivalent standard methods that are accepted by the competent body as providing data of equivalent scientific quality. Segregation schemes or controlled blending schemes like RecyClass shall be accepted as independent third-party certification for plastic packaging. Equivalent testing methods may be accepted if considered equivalent by a third-party.
