

DECLARATION FORM FOR THE SUPPLIER OF OTHER CHEMICAL PRODUCTS

Commission Decision establishing the EU Ecolabel criteria for absorbent hygiene products and for reusable menstrual cups

Declaration from the manufacturer/supplier of the chemical products used in the absorbent hygiene product

This declaration is to be filled in by the manufacturer/supplier(s) of the chemical product used in the absorbent hygiene product. The declaration shall be based on the best of the manufacturer's/supplier's knowledge at the time of declaring. Manufacturers/suppliers of adhesives, release liners, inks or dyes are requested not to fill this declaration form (another dedicated template is available)

Manufacturer/supplier name _____

Manufacturer/supplier address _____

Name of the chemical product: _____

I declare that I will keep the competent body informed in case of any changes to our products or processes which influence the validity of this declaration

Date:

July 2023

Version 1

DECLARATION FORM FOR THE SUPPLIER OF OTHER CHEMICAL PRODUCTS

Commission Decision establishing the EU Ecolabel criteria for absorbent hygiene products and for reusable menstrual cups

I declare the following statements to be true:

Sub-criterion 7.1: Restrictions on ingoing substances classified under Regulation (EC) No 1272/2008

- I declare that the chemical product does not contain ingoing substances (added as such or in mixtures) that are assigned any of the hazard classes, categories and associated hazard statement codes stated in Table 6 in Annex I to the Commission Decision
- I declare that the chemical product does not contain ingoing substances (added as such or in mixtures) in concentrations greater than 0,010% (weight by weight) that are assigned any of the hazard classes, categories and associated hazard statement codes stated in Table 7 in Annex I to the Commission Decision
- I declare that the chemical product contains titanium dioxide (nano form)
Titanium dioxide (nano form) can only be used as pigment. The chemical product cannot be used in powder or spray form
- Titanium dioxide (nano form) is used as pigment. The chemical product is not used in powder or spray form*

Sub-criterion 7.2: Substances of very high concern

- I declare that the chemical product does not contain ingoing substances identified as “substances of very high concern” and included in the list provided for in Article 59(1) of Regulation (EC) No 1907/2006.
- I declare that the latest list of SVHCs has been used on the date of this declaration.

Sub-criterion 7.3.1: Specified excluded substances

- I declare that the chemical product does not contain the following ingoing substances (alone or in mixtures):
- 5-chloro-2-methyl-4-isothiazoline-3-one (CMIT)
 - Acrylamide in superabsorbent polymers
 - Alkyl phenol ethoxylates (APEOs) and other alkyl phenol derivatives.
Exception:
 I declare that the chemical product contains sterically hindered phenolic antioxidants with molecular weight (MW) >600 g/mole

Date:

July 2023

Version 1

DECLARATION FORM FOR THE SUPPLIER OF OTHER CHEMICAL PRODUCTS

Commission Decision establishing the EU Ecolabel criteria for absorbent hygiene products and for reusable menstrual cups

- Antibacterial agents
- Formaldehyde and formaldehyde releasers
- Nitromusks and Polycyclic musks
- Organotin compounds used as a catalysts in the production of silicon
- Parabens
- Phthalates
- Substances identified to have endocrine disrupting properties
- Substances considered to be potential endocrine disruptors in category 1 or 2 on the EU's priority list of substances that are to be investigated further for endocrine disruptive effects¹.

Sub-criterion 7.3.2: Fragrances

- I declare that the chemical product does not contain fragrances.

Sub-criterion 7.3.4: Inks and dyes

- I declare that the chemical product contains inks/dyes
In this case it is mandatory to submit the declaration from the supplier of the ink/dye
- I attach supporting information.*

Sub-criterion 7.3.6: Super Absorbent Polymers (SAP)

- The chemical product is a SAP and its content of residual monomers that are classified with the H-codes reported in criterion 7.1 is _____ppm (limit: <1 000 ppm) free formaldehyde in hardened adhesive (glue) is _____ ppm (limit: <10 ppm)

It is mandatory to submit supporting information

- I attach supporting information.*

- The chemical product is a SAP and its content of water soluble extracts in SAP is _____% weight by weight (limit: <10%)

It is mandatory to submit supporting information

¹ Annex 13, available at: https://ec.europa.eu/environment/chemicals/endocrine/strategy/substances_en.htm

DECLARATION FORM FOR THE SUPPLIER OF OTHER CHEMICAL PRODUCTS

Commission Decision establishing the EU Ecolabel criteria for absorbent hygiene products and for reusable menstrual cups

I attach supporting information.

The chemical product is a SAP and does not contain acrylamide

The chemical product is not a SAP

Sub-criterion 7.3.7: Silicone

The chemical product is a silicone coating and it's not solvent-based

The chemical product is a silicone mixture and its content of octamethyl cyclotetrasiloxane (D4 – CAS no.: 556-67-2), decamethyl cyclopentasiloxane (D5 – CAS no.: 541-02-6) and dodecamethylcyclohexasiloxane (D6 – CAS no.: 540-97-6) is _____ppm for D4, _____ppm for D5, and _____ppm for D6 (each substance <800 ppm)

The chemical product is not a silicone mixture

I, the undersigned, hereby declare that all the documents provided to demonstrate the accomplishment with the criteria are true and correspond to reality.
