Information session for stakeholders and citizens on one substance, one assessment

General introduction of one substance, one assessment

1 June 2022
TRANSPARENCY

- Different rules and practices

Initiation
- Plethora of legislation
- By COM, MSs, Industry
- At different time

 Allocation
- Agency
- Expert group
- Scientific Committee
- Consultant

Data
- Availability
- Formats
- Access
- Quality

Methodologies
- Guidelines
- Guidance

Today
One substance, one assessment
TRANSPARENCY

- Stakeholders are timely informed and have access to underlying data

Initiation
- Synchronised and coordinated
- Assessments of groups of substances

Allocation
- Clear responsibilities
- Making best use of available resources and expertise
- Good governance and cooperation

Data
- Easily findable, accessible, interoperable, secure, of high quality
- Shared and reused by default

Methodologies
- Coherent
- To the extent possible harmonised
- Hazard assessment centralised under CLP Regulation

Tomorrow

One substance, one assessment
TRANSPARENCY

- Extending open data and transparency principles from the EU food sector to other pieces of chemical legislation

Initiation
- Developing coordination mechanism (PACT, expert working group, internal procedures)
- Promoting grouping approaches
- CLP amendment – allowing COM to initiate harmonised classification

Allocation
- Proposal for re-allocation of technical and scientific work on chemicals to the EU Agencies
- Proposal for ECHA’s founding regulation

Data
- Use IUCLID and IPCHEM
- Develop a Common Data Platform on Chemicals
- Develop tools to improve uptake of academic data
- Remove obstacles for reuse of data and better streamline flow of data
- Proposal to allow authorities to commission testing and monitoring of substances

Methodologies
- Establishment of a EU repository of health-based limit values
- CLP amendment – ensuring that CLP is central piece for hazard classification
- Review of definition of nanomaterials

Getting there
One substance, one assessment
Organisation of work

- Developing coordination mechanism (extension of ACT/PACT and expert working group)
- CLP Revision
- REACH Revision
- Horizontal legislative proposal for reallocation of technical and scientific work to Agencies
- Proposal for ECHA’s founding regulation
- Data, tools and platforms
- Horizontal legislative proposal on data
## Timelines of work
