

FEE TABLE

FEBRUARY 2023

DEFINITIONS

Below are reported EU Ecolabel fees as defined in the EU Ecolabel Regulation, for full text definitions please consult Annex III. In case you need any additional information, you may contact your local Competent Body.

Application fee

The competent body to which an application is made shall charge a fee for processing the application. This fee shall be no lower than EUR 200 and no higher than EUR 2 000. Reductions may apply for some applications. For more information, consult Annex III of the EU Ecolabel Regulation or ask your competent body.

Annual fee

The competent body may require each applicant who has been awarded an EU Ecolabel to pay an annual fee. This can be a flat fee or a fee based on the annual value of sales within the Union of the product awarded the EU Ecolabel. The period covered by the fee will begin from the date of the award of the EU Ecolabel to the applicant.

Inspection fee

The competent body may charge an inspection fee, as the annual fee does not cover the cost of testing, verification and any on-site inspections that may be required. Applicants will cover the cost of such testing, verification and inspections themselves.

Extension and modification fees

Competent bodies may charge a fee for modification or extension of a licence. The fee for this shall not be higher than the application fee and any reductions shall also apply.

*Application/Renewal fees are reduced by 30% for those applicants who are registered under EMAS or by 15% for those applicants who are certified under ISO 14001. Reductions are not cumulative. The reduction for EMAS and ISO 14001 is subject to the condition that the applicant explicitly commits to ensuring full compliance of its ecolabelled products with the relevant EU Ecolabel criteria throughout the period of validity of the contract and that this commitment is appropriately incorporated into its environmental policy and detailed environmental objectives

For licence holders licensed to use the Nordic Ecolabel for the same products during the same period, the Nordic share of the EU turnover may be excluded from the calculation of the licence fee for the EU Ecolabel. This does not affect the maximum and minimum fees.
